

Manufacturers declaration

relating to the directive 94/9 EG

0. General

Device: lined and not lined valves

Manufacturer: **Pfeiffer Chemie-Armaturenbau GmbH**

Address : Hooghe Weg 41
47906 Kempen
Germany

1. Interpretation of declaration to the directive 94/9 EG

Pfeiffer valves have no own potential ignition source after testing the hazardous ignition in accordance to DIN EN 13463-1:2002.
Therefore Pfeiffer valves do not come under the directive 94/9 EG.
Relating to this directive a CE-marking is not permissible.

The valve could be incorporated into potential compensation of plants independent of the directive, valid for metallic parts in hazardous areas.

Valves with teflon lining (PFA, PTFE) in application with rechargeable media, have to be lined with conductive teflon lining, surface resistance less 1Gigaohm (10^9 Ohm), in accordance to DIN EN 13463-1:2002.

Kempen, 14. January 2004

Lorenz Stolzenberg, Managing Director
